

ANNUAL HEATING SYSTEM SERVICE

Keep Your ASHP & Hot Water Cylinder Running at Their Best

Keeping your Air Source Heat Pump and unvented hot water cylinder properly maintained is essential for protecting your investment, maintaining your warranty, and ensuring your home's heating and hot water system runs safely and efficiently all year round. Our expert annual service checks every key part of your system, giving you confidence that your equipment is operating at peak performance and ready for the seasons ahead.

Why Annual Servicing Is Essential

- 🏠 Maintains manufacturer warranty and prevents voided cover
- 🏠 Improves efficiency, helping reduce energy usage and household bills
- 🏠 Reduces the risk of breakdowns and costly repairs
- 🏠 Extends the life of your heating and hot water system
- 🏠 Ensures system safety, pressure stability, and correct operation
- 🏠 Keeps your home comfortable and reliable throughout the year

WHAT'S INCLUDED

Our engineers carry out a comprehensive system check including: clearing debris, inspecting the outdoor ASHP unit, checking electrical components, testing refrigerant and antifreeze levels, ensuring safe cylinder performance, reviewing system pressure, validating pasteurisation cycles, and confirming controller settings for optimal operation.

AIR SOURCE HEAT PUMP ANNUAL SERVICE

Our ASHP service includes full inspection of the outdoor unit, fan operation, heat exchanger condition, electrical connections, refrigerant/antifreeze levels, condensate drainage, system pressure checks, and controller diagnostics. This service ensures your system remains efficient, reliable, and compliant with manufacturer warranty requirements.

£240

UNVENTED HOT WATER CYLINDER SERVICE

This service covers safety valve checks, pressure testing, heat-loss insulation review, expansion vessel performance, temperature controls, and validation of the pasteurisation cycle. Regular servicing ensures safe operation and reduces the risk of leaks, pressure issues, and energy waste.

£138

COMBINED ASHP + UNVENTED CYLINDER PACKAGE

Save with our full system package. Get both your ASHP and unvented cylinder serviced in the same visit for a complete heating and hot water performance check.
